\$3,000,000 READY FOR THE "LIB-ERATORS" OF CUBA.

DISTRIBUTION BEGINS TO-DAY

ONLY 400 NAMES HAVE BEEN LISTED IN HAVANA.

The Muster Rolls Are Padded and Patriots to the Number of 40,000 Are Listed-Veterans Will Stubbornly Refuse to Give Up Arms.

HAVANA, May 26.-The distribution of the \$1,900,000 which the United States gov-ernment has offered as a guaranty to the Cuban troops on disbanding and surrender-ing their arms will begin at 10 o'clock tomorrow morning at the foot of the Prado. Under the swellen muster rolls prepared by the late Cuban military assembly the Americans who have closely followed the subject are curious to see what proportion of the numbers listed will actually appear. There are only 400 on the list for Havana, and Lieutenant Colonel George M. Randall, of the Eighth United States infantry, the commissioner superintending the distribution here, does not expect any

trouble.

The strike of the lightermen, in the opin-The strike of the lightermen, in the opinion of Admiral Cromwell, captain of the port, and the principal shippers, is fast assuming serious proportions. G. Lawton Childs, agent of the Plant line, was notified to-day that the stevedores in his company's employ had joined the strike, giving as their only reason their sympathy with the others and the orders of the trade union. He was also informed of the probability of a strike by the carters. If the latter go on strike the cabmen will follow suit, which will mean a tremendous blow to the commerce of this city.

The general opinion is that the strike is absolutely without instiffication. The men have been earning good wages, from \$50 to \$50 a month. The difficulty involves also the importation of men, from Florida, as happened five years ago. Trouble has been brewing for some time, but no one could explain the cause, as the lightermen have all along been the best paid body of men engaged in manual labor in Havana.

Admiral Cromwell says he did, and has been doing, all in his power to aver the strike and to limit it. At the very out-

been doing, all in his power to aver the strike and to limit it. At the very outset, the terms of the strikers were in part accepted when all the employers raised the lightermen's wages, the increase being 25 per cent on the old figures; he believes the present discontent is due solely to agitators. In the beginning he pointed out to the strikers that the exorbitant terms exacted by the lightermen at Buenos Ayres completely blotted out their existence, as the merchants hired tugs, towed the ships right to the city wharves and soon found no further use for lightermen. The same possibility, he told them, existed in Havana harber, where wharves could easily be built that would altogether do away with the lightermen.

The issue of the strike is doubtful. Admiral Cromwell has received word that the respective trade unions intend to order out the masons, plumbers and other workmen, but he believes that the workmen of the United States would be astonished at the grounds offered for the present strike and could not extend their sympathy. He believes, too, that if there be any right to strike, it is the right of the steamship owners, who are really suffering more than anyone else. In his judgment Major General Leonard Woods policy regarding the dock laborers' strike last October in Santiago is the best in dealing with such problems, giving the strikers twenty-four hours in which to go to work, with the alternative of importation from Jamaica of all the labor necessary. He recalls the fact that the Santiago strikers, knowing that General Wood meant what he said, resumed work the pext morning. "Such men," he says, "are accustomed to the curb, and require ruling. They do not understand the free reln. Personally, I have done all I consider that I am relieved of all responsibility."

Will Punish Libelous Editors.

Governor General Brooke has a decree to be issued making editors and publishers responsible for libels. The Spanish law made the writer of an articlation responsible, and therefore, ever aione responsible, and therefore, every Havana editor had a hired substitute, paid to sign articles of a defamatory charac-ter. This substitute is usually a "long time jail birl, who for money enough to make imprisonment easy will sign any-thing

Many things in the tolls from which our copies were made go toward creating the impression that they have been made up for the occasion of this payment, but as General Ernst in his letter to the adjutant general of the division on his relinquishing his command here covered these fully, I do not deem it necessary to repeat them on paper, lest the generals should have determined to discourage the soldiers taking the \$75."

Veterans Will Not Give Up Arms.

At a meeting of the veterans of independence last night, which was largely attended, it was resolved to approve the decision of the army in the Ordant, or Eastern provinces, and to recommend the army in the Ordant, or Western provinces, to take the same course. A resolution declaring against either giving up arms or accepting money from the United States was carried unanimously.

In accordinnce with this action, Colonel Nunez began to disband his followers to day, \$90 men being billiered among the towns of Pinar del Rio province. The first brigade, \$40 infantry and \$50 infantry, will begin to muster out to-morrow. Thus toom brigade, \$41 cavalry and \$40 infantry and \$50 infantry, will begin to muster out to-morrow. Four regiments which Colonel Illeras has quartered near San Antonio de Los Banos, with \$80 cavalrymen, will be mustered out next Monday. The Cubans are attempting to form a club, composed of all the government employes, with a view to a contribution of a percentage of salaries to a general fund for the relief of the necessities of ex-soldiers.

Rubbi Mayer Discourses on the Czar's Universal Disarmament Plan-Conference Shows the Tendency of Modern Times.

The peace conference at The Hague furnished the theme for Rabbi H. H. Mayer's oration at the Temple B'nai Jehudah last night. A comparison of the Greek idea of victorious peace, as shown in their sculptures, with the Jewish teaching of peace and rest to both the victors and vanquished, and sorrow for the sufferers of either side, was made by the rabbi at the beginning of his discourse. The Jews, he said, strove to been a suffered by the said, strove to been a suffered by the suffered by the said, strove to been a suffered by the said, strove to been a suffered by the suf the beginning of his discourse. The Jews, he said, strove to keep down the feeling of gloating triumph that the horror of war and its never absent burden of sorrow, might be better be kept in mind, to the scouragement of conflict. The Jewish stration of that kind has been made. It is for the purpose of pretending that rural police are necessary, which Baldwin thinks is not the case. He adds that he regards it as far better to intrust the preservation of the peace to the municipalities—they to call for force when necessary—than to the present system of rural guards, which is dingerous and expensive. I fully concur in this opinion. "Brigadier General."

General Wilson's room in Matanzus was recently entered by burglars, who secured his watch, some money and other valuables.

Sculptor, he said, would have chiseled the obverse of the victory-flushed and domineering figure that the Grecian drew. The rabbi deplored the criticism and obtaining comment which the declarations of the czar had brought on, and said we had no right to question that ruler's sincerity, though he and his predecessors had been the authors of the extreme in modern times, of military and despotic opposite of the victory-flushed and domineering figure that the Grecian drew. The various committees have now settled to work and the delegates have begun a formal exchange of views. It was decided to-duy to appoint committees to receive all suggestions, proposals and petitions emanating from outsiders; but so far as is yet ascertainable these will be pigeonholed without consideration unless they come within the purview of the questions enumerated in the circular of Count Muravieff, the Russian minister of foreign affairs, in outlining the subjects for consideration.
